

Hostile Environment Awareness Training (HEAT)

RPS Partnership offers a number of courses from 1 to 5 days in duration. We specialise in making the training as realistic as possible, planning for the worst to ensure that you are prepared to deal with everyday challenges you may face in a hostile or unfamiliar environment. By attending one of our bespoke training packages you will be better equipped to deal with any hostile actions in the country you are going to.

We have a four phased approach:

- 1. We get you to think** - what if and what will I do?
- 2. Take action** - with the correct level of training you will be able to deal with medical and dangerous situations
- 3. Take ownership** - planning each trip is as if it was the first, you have to take responsibility
- 4. Support** - before during and after RPS Partnership will be with you every step of the way

How good is your situational awareness ? **Absence of the normal, presence of the abnormal !** Working with our team you will plan and prepare for your travels. We offer advice to ensure all your concerns are addressed. Our diverse and unique teams of male and female trainers have many years of experience. They all hold nationally recognised training qualifications and are experienced security specialists and travellers.

Subjects RPS Partnership can offer:

Travel preparation - Conflict management - Weapon awareness and use of body armour - Journey management - Terrorist incidents
Arrest/Detention/Hostage & Kidnap situations - Lone Gunman incidents - Surveillance & Personal security - Medical training
