

Travel Security & Hostile Environment Training

RPS Partnership provides stimulating and realistic training for international NGOs and humanitarian workers, oil and gas employees as well as journalists and others who work in complex locations. We plan for the worst to ensure that you are prepared to deal with the everyday challenges you may face in an unfamiliar or hostile environment. Our experienced team ensure that your training requirements are tailored to the highest standards.

- We can bring the training to your offices so that your staff have the minimum amount of disruption
- The courses are specifically designed for your needs
- All our trainers hold nationally recognised UK training qualifications and are experienced security consultants and travellers
- We also have specialist female trainers who can provide more sensitive training for your female travellers

We offer training at your place of work or any other venue in the UK or overseas in your country of operations. We offer residential courses in the UK at our training venue which is approx 45 minutes from Heathrow.

All courses come with a recognised form of certification

One day Travel Security workshop

This workshop is designed for those travelling to lower risk locations and for business travellers who need the knowledge and skills to stay safe when abroad. Our courses are designed to build confidence and ensure that travellers are prepared, avoid challenging situations and handle themselves if things don't go as planned. Our courses ensure that companies fulfil their duty of care obligations to their employees.

One day Female Travel Security Workshop

Duty of care to our female travellers has never been as critical as it is today. Do they feel vulnerable when travelling and do they know what to do if they feel unsafe? Our workshop is run by our experienced female trainers who have travelled all over the world. We focus on travel safety, personal security, risk profiling and some practical solutions when staff are targeted.

Hostile Environment Training (also known as HEFAT/HEAT) – UK and Worldwide

This course is designed for those working in fragile, remote, challenging or hostile and high-risk environments, around the way your staff live, work and travel and is typically 3 or 4 days in duration, depending on how high risk the country or work is. Subjects may vary with a mix of security; which may include travel and journey preparation and management, conflict management, weapons awareness, terrorist incidents, arrest, detention, hostage and kidnap survival, surveillance and personal security and First Aid. Our First Aid modules are adapted to what you are doing in your workplace and where and how you are going to be working. It may include how to deal with basic trauma injuries such as those encountered in a road traffic collision or in a terrorist attack.
